

Art and Photography

A Level Art and Photography is the most exciting development in your creative career. The course enables you to think, to be ambitious and go beyond your expectations.

The best way to start this course is with a tiny object/ thought or an idea that allows you to explore your inner depth of you. Using all the resources that you have and creating something from it showing logic and clear thinking. Remember the motto : clear writing is clear thinking.

Your subject matter/ project is both for Art and Photography is:
Humans and environmental impact

Questions to think about

1. How do humans interact with society or make a contribution to who they are in society? How do you show period of time? 3. What about moods, emotions and presences?
2. What about self-isolation
3. What about climate-change
4. What about catastrophic change
5. What about mircoaggression
6. What about feminism movement
7. What about race
8. What about language
9. What about stereotypes

Task

Build a portfolio of your choice and style- this could be a series of large paintings on canvas or sheets of paper.

Photography taking photos in isolation- inspired by Gillian Wearing, digital media, recording videos or creating an animation piece

Research ten artists and use their influences.

Be creative and be original- it doesn't matter in what format it comes but think out of the box. The most important thing is to write about your ideas and why
