Ms Suvi Mohey [Principal]

10th January 2022

Dear Parents/Carers

Happy New Year, we hope you had a great Christmas break!

We are excited to announce that we had an amazing term with many of our students partaking in activities at the STEM (Science, Technology, Engineering and Mathematics) Club. We are looking forward to another successful term. The Club is open to KS3 students in Year 7 to Year 9 and runs after school from **3.05pm – 4.00pm** every **Monday**. It takes place within the Science Department with Ms Ali serving as the STEM Club Lead. We will be resuming the running of the Club starting on **Monday 17th January 2022** and it will run right through until the end of each term.

This a fantastic opportunity for students to participate in stimulating and challenging STEM activities and explore related careers. Our goal is to have a club that supports your child’s awareness of, interest in and preparation for STEM careers, and that they develop friendships with peers and build life-long skills in a supportive and nurturing environment. Students will also have opportunities to enter into STEM competitions, complete projects for CREST rewards in Bronze, Silver and Gold and receive rewards for completion of their STEM Club diaries.

We’d love to see more students attending regularly although there is no obligation on their part to come every week. However, if demand is high, we may need to split the club into smaller groups, each of which will likely have 5 sessions.

If your child would like to attend please fill out and return the slip below to Student Services as soon as possible (paper copies are available from Student Services if required).

If you have any questions or concerns, please do not hesitate to email me at sali@park-aspirations.org

Many thanks.

Yours sincerely

Ms S Ali
Science Department
