

Ms Suvi Mohey [Principal]

5th September 2022

Dear Parent/Carer,

Re: Year 13 UCAS and Post 18 Choices

This is an important time for students in Year 13. Not only are they concerned about examinations but also will soon be considering their future beyond Sixth Form.

Many students will be thinking of applying for higher education or apprenticeships, beginning these courses in 2023 and beyond. Students have already started on their personal statements and aware of the process, but it is very important that parents and carers are also aware of the complex nature of the application system and the funding implications of a University place, and how to support apprenticeship applications.

We would therefore like to invite you to an Information Evening on the UCAS process and apprenticeships on Tuesday 20th September, starting at 5.00pm in the Sixth Form Centre.

The presentation will take no longer than one hour, and it will include a presentation from Gloria Cheng, Widening Access Officer, at Brunel University will be presenting on the UCAS process as well as providing information about Student Finance. Information will also be given about apprenticeships and how students can apply for these.

We hope that you are able to make this important evening.

Yours sincerely,

Miss B Reynolds
Senior Vice Principal
